Nichols,

Some of these had damage to the surrounding area but the facility ended up being ok. Hope I didn't read the original question wrong. See below for current assessment.

Thanks,

Mike

Mike,

For the WWTP's that have major and minor damage, can you give me a brief description of the damage and then also confirm if the damage has been repaired or not? You can just type the information in the email if that is easier for you. I've listed the facilities below.

Blue ridge - seems to be ok, area flooded

MUD 55 - seems to be ok, address flooded

MUD 162 - cannot assess, flooded

MUD 182 - cannot assess, area flooded

Foster Brisco - cannot assess, flooded

MUD 365 - lost blower and maybe electrical, still partially flooded

WCID 89 - cannot assess, flooded

Memorial MUD - flooded

North Territory - flooded

Nottingham Country - flooded

Sienna Plantation 2 - fence

Sienna Plantation 3 - fence

Sienna Plantation 4 - fence

Willow Point - well motor, replaced

Thanks again for your help,

Nichole,

I have completed the spreadsheet according to all the current knowledge I have on our facilities. You can follow up with me if you have any questions or wish to know the future status of these systems.

Thanks,

Michael Thornhill
